

## Blockchain Technology, Cryptocurrency & Digital Assets

The Lippes Mathias Blockchain Technology, Cryptocurrency & Digital Assets

Practice Team offers clients a broad range of legal services to help them

understand and navigate the ever-changing regulatory climate in order to structure and conduct their business in alignment with best practices. Our multidisciplinary team can advise on a variety of blockchain matters, including initial coin offerings (ICOs), crypto-currency investments, smart contract transactions, regulatory investigations, and litigation support. Our practice touches on the following areas:

- Regulatory compliance, from securities laws to consumer protections laws
- Technology transactions and business transaction advice
- Data privacy and cybersecurity
- Venture capital and private investments
- Capital markets
- Mergers and acquisitions
- Intellectual property matters and licensing
- Tax
- Financial services regulatory enforcement and investigations
- Know Your Client (KYC) & Anti-Money Laundering (AML) compliance matters
- Commercial litigation
- Public policy and government affairs

In addition, our team, supported by the firm as a whole, works on a wide variety matters that intersect with blockchain technology and can provide sophisticated advice on cybersecurity, supply chain management, the Internet of Things, as well as issues that arise from blockchain's impact on industries such as finance, healthcare, logistics, accounting, and real estate.
